Subject: Contraception
Date: Friday, August 19, 2011 12:54:59 AM

I join with the American Association of University Women (AAUW) in asking you to accept the recommendations of the Institute of Medicine pertaining to coverage of preventive care for women under the new health care law, and to reject any exemptions for "religious employers." These preventive services are a critical element of the new law and would provide countless women better access to necessary health care. Rejecting the inclusion of contraceptive access would be treating women as second class citizens.

Thank you
